

## **Carl Azzoo: Managing Consultant**

With more than 12 years' experience as a specialist recruiter to the financial services technology sector, Carl has an in-depth understanding of the companies, technologies and people involved.

During his seven years at RP International, Carl has focused on niche products and has developed a strong network focused around core banking and IBM products. This specialism means that he is able to respond efficiently and effectively to client requirements.

Carl's focus on Globus / T24 has resulted in an ongoing relationship with its vendor, Temenos, which has led to RP International becoming its only specific T24 resource partner across Europe. Carl has also held responsibility for RP International's IBM account which has seen the two companies working together on more than 30 countries in the last seven years.

Carl's expertise as a provider of resource solutions is reinforced by his degree in software engineering.

### **Key specialisms:**

Financial Services (Core Banking), Telecoms (OSS / BSS)

### **Example placements:**

Team of 20 permanent and contract employees - Islamic Bank of Britain, a new start-up bank in the UK

Team of 15 contractors - IBM Turkey's IsBank project across Core banking, CRM, Middleware, Data Warehousing and Treasury functions

Team of 6 Globus/ T24 contractors - IBM Trinidad for Royal Bank of Trinidad and Tobago IT transformation programme
