

Isabella Lee-Williams: Practice Leader

Isabella has partnered MNCs and start-up organisations worldwide to place executive and senior leadership talent.

Before entering the executive search industry in 2006, Isabella worked as a HR partner and sales analyst across the Asia-Pacific and Japan region for a US semiconductor organisation. During this time she developed an extensive understanding of OEM, EMS and distribution business models and the different sales functions within each. Her HR Business Partner responsibilities have provided her with an excellent understanding of different HR practices throughout the Asia Pacific and Japan markets.

Her broader technology understanding is strengthened by time spent working in the HR function for a multinational oil and gas, marketing communications agency.

Key specialisms:

Semiconductors and Components

Industrial

Procurement

Supply Chain
